Implementing Systemic Change needs Comprehensive Information

QEDU helps one analyse the learning outcomes of every school in order to plan the next intervention, at the local or state level.

Can you answer:

- What is the percentage of kids in your country with adequate literacy?
- Which regions in your country are best and worse performing?
- What are the schools delivering good learning outcomes in poor performing areas, and what are they doing differently?

QEDU is a platform that organizes detailed information about learning outcomes in Brazil, with a friendly interface for all stakeholders.

Requirements: 1. Common Core  
2. National Exams (census, not samples)  
3. Parameters adjusted with international metrics  
4. Interface
